Additional comments:

SOME OF THE TEACHER ORDERS PLACED THROUGH AMAZON & SCHOOL SPECIALTY HAVE NO SIGNATURE ON RECEIVING COPY OF THE PO OR ON THE PACKING SLIP. THERE IS NO SIGNATURE TO SAY ALL THE GOODS ORDERED WERE RECEIVED AND THE GOODS WERE IN SATISFACTORY CONDITION. A COUPLE ORDERS HAD MARKS THAT DENOTED SOMEONE WENT THROUGH THE ORDER & MADE SURE EVERYTHING WAS THERE, BUT THERE STILL WAS NO SIGNATURE/INITIALS. DUE TO SUMMER VACATION, IT WAS HARD TO TRACK DOWN SIGNATURES NEEDED. THE VALUE OF THE ORDERS IDENTIFIED WAS \$3962.71.

I hereby certify that the schedule of claims, GF Warrant No. A24

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING

The Board recognizes the unique challenges that face students in temporary housing (i.e., homeless children and youth) and will provide these students with access to the same free and appropriate public education, including public preschool education, as other students, as well as access to educational and other services necessary to be successful in school. The District will ensure that these students are not separated from the mainstream school environment. The Board is also committed to eliminating barriers to the identification, enrollment, attendance, and success of students in temporary housing.

Identification of Students in Temporary Housing

All districts are obligated to affirmatively identify all students in temporary housing. Therefore, the District will determine whether there are students in temporary housing within the District by using a housing questionnaire to determine the nighttime residence of all newly enrolled students and all students whose address changes during the school year. Not all students in temporary housing can be identified through social service agencies or shelters, as children may be sharing the housing of other persons, such as family or friends, due to loss of housing, economic hardship, or other similar reason. For this reason, the District uses a housing questionnaire that asks for a description of the current living arrangements of the child or youth to determine whether the child or youth meets the definition of a homeless child.

In addition to using the housing questionnaire, the District will also contact the local department of social services (LDSS) (i.e., the social services district) to identify students in temporary housing, as well as the local runaway and homeless youth shelter, and any other shelters located within District boundaries to ensure all students in temporary housing are properly identified and served.

The McKinney-Vento Liaison for Students in Temporary Housing

The District will designate an appropriate staff person, who may also be a coordinator for other federal programs, as the District liaison for students in temporary housing (otherwise referred to as the McKinney-Vento liaison). The District's McKinney-Vento liaison serves as one of the primary contacts between families experiencing homelessness and school staff, district personnel, shelter workers, and other service providers. The McKinney-Vento liaison coordinates services to ensure that homeless children and youth enroll in school and have the opportunity to succeed.

The District's McKinney-Vento liaison must ensure that:

- i) A record is maintained of all appeals of enrollment, school selection, and transportation;

- l) Unaccompanied youths:

 - 3. Are informed of their status as independent students under section 480 of the Higher Education Act of 1965 and that the youths may obtain assistance from the McKinney-Vento liaison to receive verification of this status for purposes of the Free Application for Federal Student Aid (FAFSA);

School District and School Designations

A designator will make the initial decision about which school district and school a student in temporary housing will attend. A designator is:

- a) The parent or person in parental relation (guardian) to a student in temporary housing;

(Continued)

Students

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

- b) The student in temporary housing, together with the McKinney-Vento liaison, in the case of an unaccompanied youth; or
- c) The director of a residential program for runaway and homeless youth, in consultation with the student in temporary housing, where the student is living in that program.

The District will ask the designator to designate one of the following as the school district of attendance for the student in temporary housing:

- a) The school district of current location;
- b) The school district of origin; or
- c) A school district participating in a regional placement plan.

The District will also ask the designator to designate one of the following as the school where a student in temporary housing seeks to attend:

- a) The school of origin; or
- b) Any school that permanent housed children and youth who live in the attendance area in which the child or youth is actually living are eligible to attend, including a preschool.

A student in temporary housing is entitled to attend the schools of the school district of origin without the payment of tuition for the duration of his or her homelessness and through the remainder of the school year in which the student becomes permanently housed and for one additional year if that year constitutes the student's terminal year in that school building, subject to a best interest determination.

Designation/STAC 202 Form

The District will identify all students in temporary housing, and a designation form will be completed by the designator for all these students and any other student who claims homelessness. Designations must be made on the STAC 202 form provided by the Commissioner.

The appropriate designator must complete the designation form. The District makes designation forms available to a student in temporary housing who seeks admission to school or to the parent or person in parental relation who seeks to enroll the child in school.

The District will provide completed designation forms to the McKinney-Vento liaison immediately, but no later than two business days from the earlier date on which the child or youth either:

- a) Sought enrollment in school; or

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

- b) Was placed in a temporary housing facility or residential facility for runaway and homeless youth.

Where a parent or person in parental relation or a child who is neither placed in a temporary housing facility by the LDSS nor housed in a residential program for runaway homeless youth, designates the District as the school district of current location, the District will forward to the State Education Department a completed designation form and a statement of the basis for its determination that the child is a homeless child entitled to attend the District's schools.

Immediate Enrollment and Best Interest Determinations

Upon identification of a child who is in temporary housing and/or receipt of a completed designation/STAC 202 form, the District will:

- a) Immediately review the designation form to ensure that it has been completed and admit the student in temporary housing even if the child or youth is unable to produce records normally required for enrollment, such as previous academic records, medical records, immunization records, proof of residency or other documentation and even if the child or youth has missed application deadlines;
- b) Determine whether the designation made by the designator is consistent with the best interests of the student in temporary housing. In making best interests decisions the District will:
 - 1. Presume that keeping the child in the school of origin is in the child's best interest, except when doing so is contrary to the wishes of the parent or guardian (or youth in the case of an unaccompanied youth); and
 - 2. Consider student-centered factors such as the effect of mobility on student achievement, education, health, and safety of the child, giving priority to the wishes of the child's parent or guardian (or the youth, if a homeless unaccompanied youth). If the District determines that it is in the best interest of the student in temporary housing to attend a school other than the school of origin or the designated school, the District will provide the parent or guardian (or youth, if an unaccompanied youth) with a written explanation of its determination, including information about the right to appeal.
- c) Provide the child with access to all of the District's programs, activities and services to the same extent as they are provided to resident students;
- d) Immediately contact the school district where the child's records are located in order to obtain a copy of these records and coordinate the transmittal of records for students with disabilities pursuant to applicable laws and regulations;

(Continued)

Students

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

- e) Immediately refer the parent or guardian of the student in temporary housing to the McKinney-Vento liaison who must assist in obtaining necessary immunizations or immunization or medical records if the child or youth needs to obtain immunizations or immunization or medical records;
- f) Forward the STAC 202 form to the Commissioner and the school district of origin, where applicable. In all cases, the District will give a copy of the completed STAC 202 form to the designator and keep a copy of the STAC 202 form for the District's records;
- g) Arrange for transportation in accordance with applicable laws and regulations; and
- h) *Arrange for the child to receive free school meals.

Request for Records

Within five days of receipt of a request for school records from a new school, the District will forward, in a manner consistent with state and federal law, a complete copy of the student in temporary housing's records, including, but not limited to, proof of age, academic records, evaluations, immunization records, and guardianship papers, if applicable.

****Tuition Reimbursement**

The District is eligible to request reimbursement from the State Education Department for the direct costs of educational services to students in temporary housing that are not otherwise reimbursed under special federal programs, when:

- a) The District is either the school district of current location or a school district participating in a regional placement plan;
- b) The District is designated as the school district of attendance; and
- c) The school district of origin for the student in temporary housing is within New York State.

All claims for reimbursement will be made on the STAC 202 form prescribed by the Commissioner of the State Education Department.

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

In addition, the District is eligible for reimbursement for the direct costs of educational services, including transportation costs for students who continue enrollment in the District schools after finding permanent housing midyear in a different school district within New York State. In these cases, the District will directly bill the new district where the student permanently resides for all direct costs of educational services, including transportation, that are not otherwise reimbursed under special federal programs.

Transportation Responsibilities

The LDSS is responsible for providing transportation to students in temporary housing, including preschool students and students with disabilities who are eligible for benefits under Social Services Law §350-j and placed in temporary housing arrangements outside their designated districts. Where the LDSS requests that the District provide or arrange for transportation for a student in temporary housing in the circumstances above, the District will provide or arrange for the transportation and directly bill the LDSS so that the district will be fully and promptly reimbursed for the cost of the transportation.

If the District is the designated school district of attendance, the District will provide for the transportation of each student in temporary housing who is living in a residential program for runaway and homeless youth, including if the temporary housing is located outside the school district. The costs for transportation for each student in temporary housing who lives in a residential program for runaway youth and homeless youth located outside of the designated school district will be reimbursed by the State Education Department, to the extent funds are provided for the purpose, with the submission of a Runaway and Homeless Youth Act Transportation Program Form. Where the District provides transportation for a student living in a Runaway and Homeless Youth facility, the District will promptly request reimbursement using the Runaway and Homeless Youth Act Transportation Form.

The District will transport any student in temporary housing to their school of origin, including preschools and charter schools, where it is the designated district of attendance and the student in temporary housing is not entitled to receive transportation from the Department of Social Services.

When the District is designated as the school district of current location for a student in temporary housing and the student does not attend the school of origin, the District will provide transportation on the same basis as it is provided to resident students, unless the local transportation policy represents a barrier to the student's attendance in school.

If the student in temporary housing designates the District as the school district of attendance, transportation will not exceed 50 miles each way, unless the Commissioner determines that it is in the best interest of the child.

Students

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

Where the District is designated as the school district of attendance and it has recommended the student in temporary housing attend a summer educational program, the district of attendance will provide transportation services to students in temporary housing for summer educational programs if the lack of transportation poses a barrier to the student's participation in the program.

Where the District is designated as the school district of attendance, it will provide transportation services to students in temporary housing for extracurricular or academic activities when:

- a) The student participates in or would like to participate in an extracurricular or academic activity, including an after-school activity, at the school;
- b) The student meets the eligibility criteria for the activity; and
- c) The lack of transportation poses a barrier to the student's participation in the activity.

Where the District is designated as the school district of attendance, it will provide transportation as described above for the duration of homelessness, unless the LDSS is responsible for providing transportation. After the student becomes permanently housed, the District will provide transportation to the school of origin until the end of the school year and for one additional year if that year constitutes the child's terminal year in the school building.

*Where a student in temporary housing must cross state-lines to attend a school of origin, the District will coordinate with the District in the neighboring state to provide transportation services when:

- a) The student is temporarily living in New York State and continues to attend school in a neighboring state; or
- b) The student is temporarily living in a neighboring state and continues to attend school in New York State.

Dispute Resolution Process

The District has established the following procedures for the prompt resolution of disputes regarding school selection or enrollment of a homeless child or youth:

- a) The District will provide a written explanation, including a statement regarding the right to appeal, to the parent or guardian of a student in temporary housing, or to an unaccompanied youth, if the District determines that the District is not required to either enroll and/or transport the child or youth to the school of origin or a school requested by the parent or guardian or unaccompanied youth, or if there is a disagreement about a child's or youth's status as a homeless child or unaccompanied youth. The written explanation will be in a

- manner and form understandable to the parent, guardian, or unaccompanied youth and will include a statement regarding the McKinney-Vento liaison's availability to help the parent, guardian, or unaccompanied youth with any appeal and the contact information for the liaison.
- b) The District will immediately enroll the student in the school in which enrollment is sought by the parent or guardian or unaccompanied youth, provide transportation to the school, and will delay for 30 days the implementation of a final determination to decline to either enroll in and/or transport the student in temporary housing to the school of origin or a school requested by the parent or guardian or unaccompanied youth.
 - c) If the parent or guardian of a student in temporary housing or unaccompanied youth commences an appeal to the Commissioner within 30 days of such final determination, the student will be permitted to continue to attend the school he or she is enrolled in at the time of the appeal and/or receive transportation to that school pending the resolution of all available appeals.

The McKinney-Vento Liaison's Dispute Resolution Responsibilities

The District's McKinney-Vento liaison must assist the student in temporary housing's parent or guardian or unaccompanied youth in bringing an appeal to the Commissioner of a final school district decision regarding enrollment, school selection and/or transportation. In the event of a dispute regarding eligibility, enrollment, school selection, and/or transportation, the District's McKinney-Vento liaison will:

- a) Provide the parent or guardian or unaccompanied youth with a copy of the form petition;
- b) Assist the parent or guardian or unaccompanied youth in completing the form petition;
- c) Arrange for the copying of the form petition and supporting documents for the parent or guardian or unaccompanied youth, without cost to the parent or guardian or unaccompanied youth;
- d) Accept service of the form petition and supporting papers on behalf of any District employee or officer named as a party, or the District if it is named as a party, or arrange for service by mail by mailing the form petition and supporting documents to any District employee or officer named as a party, and, if the District is named as a party, to a person in the office of the Superintendent who has been designated by the Board to accept service on behalf of the District;

- f) Transmit on behalf of the parent or guardian or unaccompanied youth, within five days after the service of, the form petition or any pleading or paper to the Office of Counsel, New York State Education Department, State Education Building, Albany, New York 12234;

- h) Accept service of any subsequent pleadings or papers, including any correspondence related to the appeal, if the parent or guardian or unaccompanied youth so elects. He or she will also make this correspondence available to the parent or guardian or unaccompanied youth; and
- i) Maintain a record of all appeals of enrollment, school selection, and transportation determinations.

Coordination

The District will coordinate the provision of services described in this policy with local social services agencies, housing providers and other agencies or programs providing services to students in temporary housing and their families, including services and programs funded under the Runaway and Homeless Youth Act.

The District will coordinate with other school districts on inter-district issues, such as transportation or transfer of school records.

The District will coordinate implementation of the above provision of services with the requirements of the Individuals with Disabilities Education Act (IDEA) for students with disabilities.

***Coordination with Title I**

The District acknowledges that students in temporary housing are eligible for services under Title I, Part A, whether or not they live in a Title I school attendance area or meet the academic requirements required of other children. The District will ensure that:

Students

SUBJECT: EDUCATION OF STUDENTS IN TEMPORARY HOUSING (Cont'd.)

- a) Title I, Part A funds are set aside as are necessary to provide students in temporary housing, who may have unique needs that differ from their permanently housed peers, with educationally related support services;
- b) Its local plan includes a description of how the plan is coordinated with McKinney-Vento;
- c) Its local plan describes the services provided to students in temporary housing;
- d) Its local plan describes the efforts it made to identify students in temporary housing, including unaccompanied youth, if the District reports that there are no students in temporary housing enrolled in the District. These efforts will include contacting the LDSS or Office of Children and Family Services (OCFS) to verify that there are no students in temporary housing in the District; and
- e) Its housing questionnaire asks about the living arrangements of the child or unaccompanied youth, including asking if he or she is living in a shelter; with relatives or others due to loss of housing or economic hardship; in an abandoned apartment/building; in a motel/hotel, camping ground, car, train/bus station or other similar situation due to the lack of alternative, adequate housing. Documentation of the District's efforts to identify students in temporary housing will be maintained on file and a copy of the housing questionnaire will also be kept on file.

The District will review and revise its policies that may act as barriers to the identification of students in temporary housing and their enrollment and retention in school, including barriers to enrollment and retention due to outstanding fees or fines, or absences.

Re: School Resource Officer at Duanesburg High School
For 2019-2020 School Year

CC: Dominic Dagostino, Sheriff

Joe Landry, Counsel to the Legislature

Last year the County Legislature authorized placing a school resource officer at Duanesburg High School on a part-time basis for 20 hours per week. This was a trial which permitted the school district and the Sheriff to evaluate the program. All agreed that this program was extremely successful.

This year, Sheriff Dagostino and the Duanesburg School District have reached an agreement to make the School Resource Officer (SRO) a full-time position.

The District will pay 70% of the cost of an entry level officer taking into account that the school year with summer vacation and various breaks constitutes about 70% of the officer's work time. The fringe benefit ratio is 47.01% of salary.

The financial breakdown is as follows:

Officer – Step One Salary	\$39,768.00
Fringe Benefits (47.01%)	<u>\$18,695.00</u>
Total	\$58,463.00
70% School District	\$40,924.10
30% County	\$17,538.91

I have attached the proposed contract. I recommend that this proposal be forwarded to the County Legislature for consideration at its August meetings.

I. INTRODUCTION

The Board of Education (“Board”) is committed to providing a safe and orderly learning environment where students may receive and District personnel may deliver quality educational services without disruption or interference while respecting the dignity of all students. Responsible behavior by students, teachers, other District personnel, parents and other visitors is essential to achieving this goal.

The Duaneburg Central School District, through its present policies, has a long-standing set of expectations for its students, conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, dignity, citizenship, character, tolerance, honesty, and integrity.

The Board recognizes the need, based upon legislation adopted by the State of New York, to clearly define these expectations for acceptable conduct on school property, to identify the possible consequences of unacceptable conduct, and to ensure that discipline, when necessary, is administered promptly and fairly. The Board now adopts this Code of Conduct (“Code”).

II. DEFINITIONS[1]

For purposes of this Code of Conduct, the following definitions apply.

Dignity for All Students Act (DASA): Discrimination and harassment against any student by employees or students under DASA means prohibiting discrimination and harassment against any student by employees or students on school property or at a school function, that creates a hostile environment by conduct with or without physical contact and/or by verbal threats, intimidation or abuse, of such a severe nature that: (1) has or would have the effect

of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional and/or physical well-being; or (2) reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety. Such conduct shall include, but is not limited to, threats, intimidation or abuse based on a person's actual or perceived race, color, weight, national origin, ethnic group, religion, religious practices, disability, sexual orientation, gender, or sex.

Dignity Act Coordinator (DAC): The Dignity Act also requires that at least one staff member at every school be thoroughly trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, and sex (Education Law 13 {3}). This staff member should be referred to as the Dignity Act Coordinator (DAC).

Threatening another student or employee of the school district means students will refrain from engaging in threatening language or behavior directed towards other students. Threatening language is speech that is likely to produce a clear and present danger of a serious substantive evil that rises far above public inconvenience, annoyance or interest, and which would cause a reasonable listener to apprehend direct and immediate harm from the speaker. Teachers and all other district personnel should exemplify and reinforce acceptable student dress and help students develop an understanding of appropriate appearance in the school setting.

A student's dress, grooming and appearance shall:

1. Be safe, appropriate and not disrupt or interfere with the education process. Recognize that many garments are not appropriate. Specifically, students are not allowed to clothes that expose cleavage or open sided shirts, or any garment that does not cover underwear. The hem of shirts should meet the waistband of pants or skirts.
2. Include footwear at all times. Footwear that is a safety hazard will not be allowed.
3. Not include the wearing of hats, hoods, sunglasses, visors, sweatbands, bandannas, etc. in the school building except for a medical or religious purpose, during the school day.
4. Not include items that are vulgar, obscene, and derogatory or belittle others on account of race, color, religion, creed, national origin, gender, sexual orientation or disability.
5. Not promote, advertise, and/or endorse the use of alcohol, tobacco or illegal drugs and/or encourage other illegal or violent activities.

Each building principal or his or her designee shall be responsible for informing all students and their parents of the student dress code at the beginning of the school year and any revisions to the dress code made during the school year.

Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item. Any student who refuses to do so shall be subject to discipline, up to and including in-school suspension for the day. Any student who repeatedly fails to comply with the dress code shall be subject to further discipline, up to and including out of school suspension.

VI. PROHIBITED STUDENT CONDUCT

This section of the Code has been divided into three sections:

- ◆ Behavior Expectations for Kindergarten through Grade 6
- ◆ Behavior Expectations and Discipline for Grades 7 through 12

The underlying theme of the following three sections is that students of this District must conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, District personnel, the general public and for the care of school facilities and equipment.

The Board of Education is of the opinion that students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. Given this duality of discipline, the following sections detail student behavior expectations and the consequences of that behavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The Board recognizes the need to make its expectations for student conduct while on

school property or engaged in a school function specific and clear. The rules of conduct listed on the following pages are intended to do that and focus on safety and respect for the rights and property of others. Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept appropriate penalties for their conduct.

The Dignity for All Students Act (DASA) emphasizes the creation and maintenance of a positive learning environment for all students. In connection with disciplining students who engage in discrimination and harassment, the District shall place the focus of discipline on discerning and correcting the reasons why discrimination and harassment occurred. In addition to any disciplinary consequences imposed for acts of discrimination or harassment, the following remedial measures may be implemented:

- peer support groups;
- corrective instruction or other relevant learning or service experience;
- supportive intervention;
- behavioral assessment or evaluation;
- behavioral management plans, with benchmarks that are closely monitored;
- student counseling and parent conferences.

BEHAVIOR EXPECTATIONS AND DISCIPLINE REGULATIONS

JR/SR HIGH SCHOOL – GRADES 7-12

General Comments

Student behavioral incidents should be handled first by the classroom teacher who is in direct control of the situation, or if the event did not occur in the classroom, by the District personnel observing the event.

Follow-up action to all behavioral problems should include one or more of the following:

1. A conference with the student during the day or after school with remedial action where needed.
2. A parental phone call/letter home.
3. A conference with the student's counselor/grade level principal.
4. A written Behavior Referral Report submitted to the grade-level principal, or the psychologist, guidance counselor, chairperson or supervisor when the teacher's effort to resolve the behavioral problem has proven to be unsuccessful.

A serious behavioral problem or repeated instances of a behavioral problem within a class period may result in an immediate written referral.

The Behavioral Referral Report shall indicate the nature of the follow-up action taken by the teacher (see Behavioral Referral Guidelines).

The type of student behavior indicated in writing on the referral form shall be keyed to the infractions listed below (see the Behavior Referral Guidelines).

A. Off-Campus Events:

Students at school-sponsored events held off campus shall be governed by the rules and regulations of the school and are subject to the authority of the school officials.

B. Search and Seizure:

Students may expect privacy from other students regarding their lockers, desks, or other storage areas. However, under the law, items that are school property, such as lockers, desks, computers, and other technological equipment are subject to searches by school authorities at any time. School authorities may also search students and/or their belongings where reasonable suspicion of a violation of the Code of Conduct or a violation of law exists. An administrator in the presence of another District employee shall conduct all searches. Searches can also be conducted of vehicles parked on school property when there is reasonable suspicion of a violation of the Code of Conduct or violation of the law. In all cases, the student and parent shall be informed as to the reason for the search.

C. Role of Police Officials

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials may enter school property or a school function to question or search a student, or to conduct a formal investigation involving students only if they have:

- a. A search or arrest warrant; or
- b. Probable cause to believe a crime has been committed on school property or at a school function; or
- c. Been invited by school officials.

D. Social Probation Resulting from Level I, II, or III Infractions

Any privilege offered by this building can be removed by an administrator from 30 to 90 days from the date of the infraction. Privileges can be restored if there are no other violations during the probation period. Social probation will result automatically from all Level I and Level II infractions. Violations that occur at an extra-curricular activity will lead to denial of attendance at the next similar activity(s) at the discretion of administration (even if beyond 90 days).

NOTE: Alcohol sensors may be used at selected extra-curricular activities. It is understood that school suspensions from the Albany BOCES and Schoharie BOCES are also enforced as suspensions from Duanesburg Central High School and vice versa.

Level I Infractions

Level I Infractions refer to those infractions for which the consequence may be external suspension and/or exclusion from school. Any suspension may result in social probation and possible loss of other privileges (i.e., parking and senior privileges).

Level III Infractions

A. Unexcused Tardy to School:

An unexcused tardy to school occurs when a student does not report to homeroom on time or reports to the attendance office without a valid excuse. A student has 24 hours to bring to school a written excuse from a parent or legal guardian. A student will be excused for reasons identified in the District's Comprehensive Attendance Policy. Unexcused tardies for High School students result in the following consequences:

- 3 tardies will result in one (1) lunch detention.

B. Consequences for Unexcused Tardy to Classroom

- Level 1: Warning
- Level 2: Teacher contacts parents; if not able to reach them by phone, letter will be sent with copy to guidance counselor.
- Level 3: Teacher assign lunch.
- Level 4: Referral to Principal (assigned possible detention.)

C. Behavioral Expectations for Study Halls

- Students should bring appropriate materials to keep them busy (study materials, library book, etc.).
- Students should remain in their assigned seats unless they have permission to move.
- Students should keep hands, feet and all other objects to themselves.
- Students should remain quiet (no talking without permission).

- Students should report to study hall at the designated time.

Building-Wide Behavioral Expectations

Building-wide behavioral expectations have been established for all students.

1. Follow directions of staff the first time they are given.
2. Treat other people and their property with respect by keeping hands, feet, and objects to oneself and by refraining from derogatory comments.
3. Report to designated areas at designated times.
4. Follow expectations developed for an individual classroom.
5. Dress in clothing that is not disruptive to the learning environment or is threatening to the student or to the other students, as outlined within Section V of this Code of Conduct.

Leaving School Grounds/Truancy

No student may leave the school grounds after arriving at school without approval of the administration. A parent requesting that a student leave school must submit a written request, in advance, to the attendance office. The request is verified and a dismissal slip is issued. When a student must leave school, the request must be in the attendance office before homeroom. In case of an emergency, the student will report to the attendance office to be signed out prior to leaving school grounds. Leaving school grounds without permission may result in suspension. Students may not be excused retroactively for leaving school grounds.

In-School Suspension

In-school suspension (ISS) is a program in which students who are suspended attend school but do not attend their regular classes. Students will attend ISS for the normal school day, where they are given assignments and guidance by the coordinator. These assignments will be returned to the teacher for grading and are to be used as part of the student's grades.

Failure to meet the requirements of the ISS program may result in an extension of the length of suspension. The purpose of the ISS is not to punish but rather to correct behavior.

Out-of-school suspension (OSS) is assigned for very serious offenses or for habitual problem-makers. A student may be assigned OSS for up to five (5) days and a parent conference will be scheduled before re-admission.

Lunch Policies and Regulations

All food must be eaten in the cafeteria or designated picnic areas.

Students are NOT permitted to leave school grounds during lunch without permission from an administrator. This includes all parking lots.

Attendance

Students who do not attend a minimum number of scheduled classes as stated below, regardless of the reason for the absence, may be denied academic credit. Students whose absences exceed the

following guidelines may lose credit for the course:

- Semester Course: 10 Absences
- Full Year Course: 20 Absences

Students who feel they are having trouble in class because of poor attendance are encouraged to consult with their teachers about the problems. If absences continue to accumulate, students can expect to receive warnings and advice from both their Guidance Counselor and grade level principal.

In addition to these final numbers, the Committee will get periodic reports from teachers on students with attendance problems.

Remember:

- There is an Attendance Review Committee.
- Poor attendance can result in a variety of actions by the Committee.
- If attendance is poor enough, academic credit may be denied.
- Absences can include both excused and unexcused reasons for missing school.
- Medical excuses can be for ten (10) absences only. Physician's notes covering these ten absences must be brought in to grade level office within ten (10) school days of each absence or they will not be accepted.

RtI - Attendance Review Committee

One of the most important responsibilities of any student is regular attendance in school. Duanesburg Central High School has an Attendance Review Committee which monitors student attendance. The Committee evaluates student attendance problems and recommends actions to the principal. These actions may include many options. Among these are:

- Guidance counseling
- Referral to outside agencies
- Filing P.I.N.S. petitions
- Involvement of the school Resource Officer

In addition to the actions above, the Committee may recommend that a student be denied academic credit. This means that unless the student maintains a certain attendance level he/she may be denied school credit for the course whether or not the student has a passing average in that course.

Rationale

A considerable number of students each year accumulate an excessive number of absences from school. In some cases, verified illness is the cause, and adjustments are made for supplemental or modified instruction. In some cases, the absences are a direct result of disinterest or lack of concern for school. Periodic and systematic evaluation of student attendance is necessary to maintain the proper educational environment for all students.

Function of the Committee

The purpose of the Attendance Review Committee shall be to chart a course of action that

will lead to improved attendance. This action may be any or all of the following:

- recommend denial of academic credit
- recommend guidance counseling
- recommend administrative intervention via letter, telephone call, etc.
- recommend to parents outside emergency assistance
- recommend filing P.I.N.S. petition
- recommend involvement of attendance officer
- invite student to meet with Committee
- invite parents to meet with Committee
- use any other option available
- implement attendance reduction contract

When the student reaches ten (10) absences in a half-year course or twenty (20) absences in a full-year course, the Committee would offer the parents an opportunity for a hearing. The student will be offered the opportunity to complete an "attendance reduction contract". This contract consists of a two (2) day reduction from the absence total of the student.

To fulfill the contract the student must meet with the teacher and complete course work that is equivalent to two (2) class periods. The teacher will be notified in writing of the contract. When the contract between the teacher and student is completed the grade level principal will be notified. The opportunity to enter into an "attendance reduction contract" will be offered only one time during each course.

Guidelines

The awarding of academic credit at Duquesne Central High School will be based in part on attendance in class. Students who do not attend a minimum number of academic classes may be denied academic credit. Exceptions to the attendance regulation may be made for students with extended illness who have completed other academic requirements. Information concerning the attendance requirement will be distributed to all students and teachers at the beginning of the school year.

Teacher Reports

The teachers will inform the principal according to the schedule below when a student's attendance becomes unsatisfactory. Guidance-originated appointments, parent conferences, administrative meetings, internal suspension and field trips are not reported as absences. Examples of absences are contained within the District's Comprehensive Attendance Policy.

Excused and Unexcused Events

The following reasons for absence, tardiness, or early departure will be deemed excused absences for the purpose of the attendance register:

Elementary School, Grades K-6

All other reasons not listed above are unexcused and therefore, will be counted as absences which could potentially lead to loss of course credit.

Reporting Schedule

Teachers should use the behavior referral to report absences. Include the number of absences and the student's approximate class average. Referrals should be submitted the day that each

student advances to Level II or higher levels.

LEVEL	NUMBER OF ABSENCES	ACTION TO BE TAKEN
I	One (1) to five (5) absences in either a semester or full-year course.	<ul style="list-style-type: none"> ▪ During this time, the teacher should confer with the student and inform parents if assignments are not made up.
II	Six (6) absences in a single semester course or eight (8) absences in a full year course	<ul style="list-style-type: none"> ▪ Behavioral referral sent to principal. ▪ After teacher notification, principal informs parents of continuing problem. ▪ School counselor will contact student if academic problem is a result.
III	Twelve (12) absences in a full year.	<ul style="list-style-type: none"> ▪ Behavior referral sent to principal. ▪ School counselor confers with student and parents on continuing problem.
IV	Eight (8) absences in a semester or sixteen (16) absences in a full year.	<ul style="list-style-type: none"> ▪ Behavior referral sent to principal who notifies parent and student of imminent credit loss
V	Ten (10) absences in a semester or twenty (20) absences in a full year.	<ul style="list-style-type: none"> ▪ Behavior referral sent to grade level principal. ▪ If the student fails to maintain his obligation, a loss of credit letter is then sent by the Principal.

Credit Denial

The teacher will notify the principal if the attendance reduction contract has not been completed. The principal will recommend denial of credit. The principal will notify student, parents, grade level principal, guidance counselor and teacher of final decision. If credit is denied, a grade of NM (No Mark) will be assigned. The student must remain in class.

VII. BULLYING

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school-sponsored events and/or activities whether occurring on or off campus. The range of possible intervention activities and/or sanctions for bullying is contained within the

Behavior Expectations for all grade levels.

Bullying can take three (3) forms:

- a. Physical: including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings;
- b. Verbal: including, but not limited to, taunting, malicious teasing, name calling, making threats;
- c. Psychological: including, but not limited to, spreading rumors, manipulating social relationships, or engaging in social exclusion, extortion, or intimidation.

As with other forms of bullying, cyber-bullying is an attempt to display power and control over someone perceived as weaker. Cyber-bullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices, such as cell phones, digital cameras, and personal computers, to engage in bullying. Cyber-bullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images or web site postings (including blogs).

VIII. OFF CAMPUS CONDUCT

Students may be suspended for conduct that occurred outside of the school which may endanger the health or safety of students within the educational system or adversely affect the education process. Where students off campus conduct "materially and substantially disrupts the work and discipline of the school" they may be disciplined.

IX. REPORTING VIOLATIONS

All students are expected to promptly report violations of the Code of Conduct to a teacher, guidance counselor, the building principal, or his/her designee. Any student observing a student possessing a weapon, alcohol, or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee, or the Superintendent.

All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair, and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor who shall, in turn, impose an appropriate disciplinary sanction if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol, or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction, if warranted, which may include permanent suspension and referral for prosecution. The building principal, or his/her designee, must notify the appropriate local law enforcement agency of those Code violations that constitute a crime.

Issues related to discrimination and harassment or any situation that threatens the emotional or physical health or safety of any student, school employee, or any person who is lawfully on school property or at a school function should be reported immediately to a teacher, principal, or school employee. The reporting of such incidents shall be in accordance with the Harassment of Students Policy and Regulation and Student Complaints and Grievances policies.

X. DISCIPLINARY PENALTIES

If the conduct of a student related to a disability or suspected disability occurs, the student shall be referred to the Committee on Special Education or Section 504 Committee and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

Students who are found to have violated the District's Code of Conduct may be subject to the penalties, outlined in the preceding sections, either alone or in combination. School personnel are authorized to impose that penalty, consistent with the student's right to due process as previously outlined.

XI. TEACHER DISCIPLINARY REMOVAL OF DISRUPTIVE STUDENTS

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances, the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to:

1. an opportunity for the student to regain composure in an alternative setting.

Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this Code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

If the disruptive student does not pose a danger or on-going threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or on-going threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within twenty-four (24) hours.

The teacher must complete a District-established disciplinary removal form and meet with the principal, or his or her designee, as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within twenty-four (24) hours after the student's removal, teacher must notify the student's parents that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or designee to discuss the reasons for the removal.

The principal may require the teacher who ordered the removal to attend the informal conference. If at the informal meeting the student denies the charges, the principal or designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting should be held within forty-eight (48) hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal, or principal's designee, may overturn the removal of the student from class if the principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law, including the District's Code of Conduct.
3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

The principal, or his or her designee, may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the forty-eight (48) hour period for the informal conference, if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Each teacher must keep a complete log (on a District-provided form) for all cases of removal of students from his or her class. The principal must keep a log of all removals of students from class.

XII. SUSPENSION FROM SCHOOL

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, morals, health, or welfare of others.

The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals.

A. Short-Term (5 days or less) Suspension from School

When the Superintendent or principal proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the District must immediately notify the student orally. If the student denies the misconduct, the District must provide an explanation of the basis for the proposed suspension.

The District must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express delivery, or some other means that is reasonably calculated to assure receipt of the notice within twenty-four (24) hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent within five (5) business days, unless they can show extraordinary circumstances precluding them from doing so.

The Superintendent shall issue a written decision regarding the appeal within ten (10) business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board of Education with the District Clerk within ten (10) business days of the date of the Superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within thirty (30) days of the decision.

B. Long-Term (more than 5 days) Suspension from School

When the Superintendent or building principal determines that a suspension for more than five (5) days may be warranted, he or she shall give reasonable notice to the student and

the student's parents of their right to a fair hearing. At the hearing, the student shall have the right to be represented by counsel, the right to question witnesses against him or her, and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceeding or may, at his or her discretion, designate a Hearing Officer to conduct the hearing. The Hearing Officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed satisfactory record. The Hearing Officer shall make Findings of Fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the Hearing Officer shall be advisory only, and the Superintendent may accept all or any part thereof.

An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within ten (10) business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt, in whole or in part, the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner within thirty (30) days of the decision.

C. Student Who Brings a Weapon to School

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

1. The student's age.
2. The student's grade in school.
3. The student's prior disciplinary record.
4. The Superintendent's belief that other forms of discipline may be more effective.
5. Input from parents, teachers, and/or others.
6. Other extenuating circumstances.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

D. Student Who Commits Violent Acts Other Than Bringing a Weapon to School

Any student, other than a student with a disability, who is found to have committed a violent act as defined in Section II hereof, other than bringing a weapon onto school property or possessing a weapon on school property, shall be subject to suspension from school for at least five (5) days.

If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to

all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

E. Students Who Are Repeatedly Substantially Disruptive of the Educational Process or Repeatedly Substantially Interfere with the Teacher's Authority Over the Classroom

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five (5) days.

For purposes of this Code of Conduct, "repeatedly substantially disruptive" means engaging in conduct that results in the student being removed from the classroom pursuant to Education Law §3214(3-a) and this Code on four or more occasions during a semester, or three or more occasions during a trimester.

If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

XIII. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board recognizes that it may be necessary to suspend, remove, or otherwise discipline students with disabilities to address disruptive or problematic behaviors. The Board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing, or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

A. Authorized Suspension or Removals of Students with Disabilities

1. For purposes of this section of the Code of Conduct only, the following definitions apply:

Suspension: A suspension pursuant to Education Law §3214(3)(a) through (d).

Removal: Removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial Hearing Officer because the student poses a risk of harm to himself/herself or others.

IAES: A temporary educational placement determined by the Committee on Special Education (CSE) for a period of up to forty-five (45) days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized educational program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

Serious Bodily Injury: Bodily injury which involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

Weapon: Means the same as "dangerous weapon" under 18 U.S.C. § 930(g)(2), which includes a weapon, device, instrument, material, or substance, animate or inanimate, that is used for or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2½ inches in length.

Controlled Substance: A drug or other substance identified in certain provisions of the Federal Controlled Substances Act specified in both Federal and State law and regulations.

Illegal Drugs: A controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

2. School personnel may order the suspension or removal of a student with a disability from his/her current educational placement as follows:
 - a. The Superintendent or principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five (5) consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
 - b. The Superintendent may order the placement of a student with a disability into an IAES, another setting, or suspension for up to ten (10) consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.
 - c. The Superintendent may order additional suspensions of not more than ten (10) consecutive school days in the same school year for separate incidents of

misconduct, as long as those removals do not constitute a change of placement.

- d. The Superintendent may order the placement of a student with a disability to an IAES to be determined by the CSE, for up to forty-five (45) school days, but not to exceed the period of suspension ordered by the Superintendent, where the student has inflicted serious bodily injury upon another person; carries or possesses a weapon on school property; or possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while on school property. The period of suspension may not exceed the amount of time that a non-disabled student would be suspended for the same behavior.
- e. An impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his/her current educational placement poses a risk of harm to the student or others.

B. Change of Placement Determination

A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

1. for more than ten (10) consecutive school days; or
2. for a period of ten (10) consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than ten (10) school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspension or removals to one another.

School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspensions or removals.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving serious bodily injury, weapons, illegal drugs, or controlled substances.

C. Functional Behavioral Assessment and Behavioral Intervention Plan

Where a student with a disability is suspended or removed from the student's current placement for more than ten (10) consecutive school days or when a suspension or removal constitutes a disciplinary change of placement and the student's conduct is a manifestation of the student's disability, the CSE shall:

1. conduct a functional behavioral assessment (FBA), and if appropriate, develop and implement a behavioral intervention plan for such student; or
2. if the student already has a behavioral intervention plan, the CSE shall meet to

review such plan and its implementation and modify the plan and its implementation as necessary to address the behavior that resulted in the change of placement.

D. Manifestation Determination

A manifestation determination is a review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability.

A manifestation determination must be made immediately, but in no case later than ten (10) school days after:

1. a decision is made by the Superintendent to change the placement of a student to an IAES;
2. a decision is made by an impartial Hearing Officer to place a student in an IAES;
or
3. a decision is made the Superintendent or principal to impose a suspension that constitutes a disciplinary change in placement.

A manifestation determination shall be conducted in a meeting which must include a representative of the District knowledgeable about the student, the parent and relevant members of the CSE as determined by the parent and District. The parent must receive written notification prior to any manifestation team meeting similar to prior notice requirements under the Regulations of the Commissioner of Education regarding students with disabilities.

The manifestation team shall review all relevant information in the student's file including the student's IEP, any teacher observations, and any relevant information provided by the parents to determine if the:

1. conduct in question was caused by or had a direct and substantial relationship to the student's disability; or
2. conduct in question was the direct result of the District's failure to implement the IEP.

If the manifestation team determines that either paragraph 1 or 2 above is applicable, the behavior shall be considered a manifestation of the student's disability.

If the manifestation team determines that the conduct was a manifestation of the student's disability, the CSE shall conduct a functional behavioral assessment and implement a behavioral intervention plan, and return the student to the placement from which the student was removed, unless the parent and District agree to a change of placement.

If the school identifies deficiencies in the student's IEP or placement or in their implementation, it must take immediate steps to remedy those deficiencies.

E. Students Presumed to Have a Disability for Discipline Purposes

The parent of a student who violates any District rule or the Code of Conduct and has not been identified as a student with a disability at the time of such behavior may assert any of the protections set forth in the Federal and State Education Law and Regulations, if the District is deemed to have had knowledge that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred. Where the District is deemed to have had knowledge that the student was a student with a disability before such behavior occurred, such student is presumed to have a disability for discipline purposes.

The District shall be deemed to have had knowledge that such student had a disability, if prior to the time the behavior occurred:

1. the parent of such student had expressed concern in writing to administrative personnel or to a teacher of the student that the student needed special education;
2. the parent of the student requested an evaluation of the student; or
3. a teacher of the student, or other personnel of the District expressed specific concerns about a pattern of behavior demonstrated by the student, directly to administrative personnel in accordance with the District's child find or special education referral system.

A student is not a student presumed to have a disability for discipline purposes if:

1. the parent of the student did not allowed an evaluation of the student;
2. the parent of the student refused services; or
3. it was determined that the student was not a student with a disability.

If it is claimed that the District had a basis for knowledge that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the Superintendent or principal to determine whether the student is a student presumed to have a disability.

If the Superintendent or principal determines that there is no basis for knowledge that the student is presumed to have a disability, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in similar behaviors. A request for an individual evaluation made while such non-disabled student is subjected to a disciplinary removal, should be conducted in an expedited manner. An expedited evaluation shall be completed no later than fifteen (15) school days after receipt of the request for evaluation. The CSE shall make a determination of eligibility of such student in a meeting held no later than five (5) school days after completion of the expedited evaluation. Until the expedited evaluation is completed, the non-disabled student shall remain in the education placement determined by the District, which can include suspension.

F. Due Process Procedures

Where a student is suspended for five (5) consecutive school days or less, the parents or guardians of the student shall be provided an opportunity for an informal conference in accordance with Education Law §3214 (3)(d).

Superintendent's hearings on disciplinary charges against students with disabilities and students presumed to have a disability for discipline purposes shall be bifurcated into a guilt phase and a penalty phase and conducted as follows:

1. The Superintendent shall proceed with the guilt phase and determine whether the student is guilty of the alleged misconduct. If it is determined that the student is guilty of the alleged misconduct, the Superintendent shall make a threshold determination of whether a suspension or removal in excess of ten (10) consecutive school days or that would otherwise constitute a disciplinary change in placement should be considered. If the threshold determination is that such a suspension or removal should be considered, before the Superintendent recommends any such removal, the Superintendent's hearing shall be adjourned until a manifestation determination is made. If the Superintendent determines that a suspension or removal that would constitute a disciplinary change in placement should not be considered, the hearing shall proceed to the penalty phase.
2. Upon a determination by the manifestation team that the behavior of a student with a disability was not a manifestation of the student's disability, such student may be disciplined in the same manner as a non-disabled student. Upon receipt of notice of such determination, the Superintendent shall proceed with the penalty phase of the hearing. If the manifestation team determines that the behavior was a manifestation of the student's disability, the Superintendent shall dismiss the hearing.
3. If the Superintendent is considering the change in placement of a student with a disability to an IAES, upon a determination that the student is guilty of misconduct relating to serious bodily injury, weapons, illegal drugs or controlled substances, the Superintendent may recommend such change in placement to an IAES, to be determined by the CSE, for up to forty-five (45) school days, but not to exceed the length of time that a non-disabled student would be suspended for the same misconduct under the Code of Conduct.
4. The penalty phase of a Superintendent's hearing for a student with a disability or a student presumed to have a disability for discipline purposes shall be conducted in the same manner as the penalty phase of a hearing involving a non-disabled student, including the admission of anecdotal evidence of past instances of misconduct.

G. Services During Suspensions

During any period of suspension, a student with a disability shall be provided services to the extent required under the provisions of the Individuals with Disabilities Education Act and New York State Education Law and Regulations. During suspensions or removals for periods of up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities of compulsory attendance age shall be provided with alternative instruction pursuant to Education Law §3214(3)(e) on the same basis as non-disabled students. Students with disabilities who are not of compulsory attendance age shall be entitled to receive services during such suspensions only to the extent that services are provided to non-disabled students of the same age who have been similarly suspended.

During subsequent suspensions or removals for periods of ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change in placement, regardless of the manifestation determination, students with disabilities shall be provided with services necessary to enable the student to continue to participate in the general education curriculum and to progress toward meeting the goals set out in the student's IEP. The CSE shall determine the services to be provided to the student.

During suspensions or other disciplinary removals for periods in excess of ten (10) school days in a school year which constitute a disciplinary change in placement, students with disabilities shall be provided with services, as determined by the CSE, necessary to enable the student to continue to participate in the general education curriculum to progress toward meeting the goals set out in the student's IEP.

The services to be provided to a student placed in an IAES shall be determined by the CSE, and should enable the student to progress toward meeting the goals in the student's IEP.

H. Expedited Due Process Hearings

An expedited due process hearing shall be conducted if:

1. The District requests such a hearing to obtain an order of an impartial hearing officer placing the student in an IAES where school personnel believe that it is dangerous for the student to be in his/her current educational placement;
2. The District requests such a hearing to obtain an order of an impartial hearing officer placing the student in an IAES during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his/her current educational placement during such proceedings; or
3. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.

During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.

If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.

An expedited due process hearing shall be completed within fifteen (15) business days of

receipt of the request for a hearing. Although the impartial Hearing Officer may grant specific extensions of such time period, he/she must mail a written decision to the District and the parents within five (5) business days after the last hearing date, and in no event later than forty-five (45) calendar days after receipt of the request for a hearing, without exceptions or extensions.

I. Referral to Law Enforcement and Judicial Authorities

In accordance with the provisions of IDEA and its implementing regulations:

1. The District may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a disciplinary change in placement.
2. The Superintendent shall ensure that copies of the Special Education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported, in accordance with the provisions of FERPA.

XIV. DISSEMINATION AND REVIEW

The Board will work to ensure that the community is aware of this Code of Conduct by:

1. Providing copies of a summary of the Code to all students at either a general assembly or by the individual classroom teachers held at the beginning of each school year.
2. Making copies of the Code available to all parents at the beginning of the school year at Open House events.
3. Posting a summary of the Code of Conduct in the student handbooks written in plain language to all parents of District students before the beginning of the school year on the District website.

The Board of Education will review this Code of Conduct every year and update it as necessary. In conducting the review, the Board will consider how effective the Code's provisions have been and whether the Code has been applied fairly and consistently.

Before adopting any revisions to the Code of Conduct, the Board will hold at least one public hearing at which school personnel, parents, students and any other interested party may participate.

The Code of Conduct and any amendments to it will be filed with the Commissioner no later than thirty (30) days after adoption.

SUBJECT: IMMUNIZATION OF STUDENTS

Every student entering or attending a District school must present proof of immunization or proof of immunity by serology (blood test) if applicable unless a New York State licensed physician certifies that the immunization is detrimental to the student's health. The requirement for that immunization is waived until the immunization is no longer detrimental to the student's health.

Except for this exemption, the District may not permit a student lacking evidence of immunization to remain in school for more than 14 days, or more than 30 days for an out-of-state or out-of-country transferee who can show a good faith effort to get the necessary certification or other evidence of immunization.

The administration will notify the local health authority of the name and address of the excluded students and provide the parent or person in parental relation a statement of his or her duty regarding immunization as well as a consent form prescribed by the Commissioner of Health. The school will cooperate with the local health authorities to provide a time and place for the immunization of these students.

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary immunizations, or immunization or medical records.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

All schools will also post educational information on influenza and the benefits of influenza immunization which will be in plain view and available to parents.
