

**PROPOSED ELEMENTARY SCHOOL BUS LOOP**

### Elementary Bus Loop Project

Currently, parent pick-up and drop-off at the Elementary School is **both inefficient and presents safety concerns**. The scope of this project is to **construct a new bus loop at the Elementary School** which would remove buses from the current parent drop off and staff parking area.

This project would also include window replacements for many rooms at the Elementary School.

### Project Cost: \$1.4 million

Due to the financial stewardship of the District and New York State Building Aid, this project will have **no additional tax impact**.
